

# North of Scotland Trauma Network Annual Report 2020 - 21

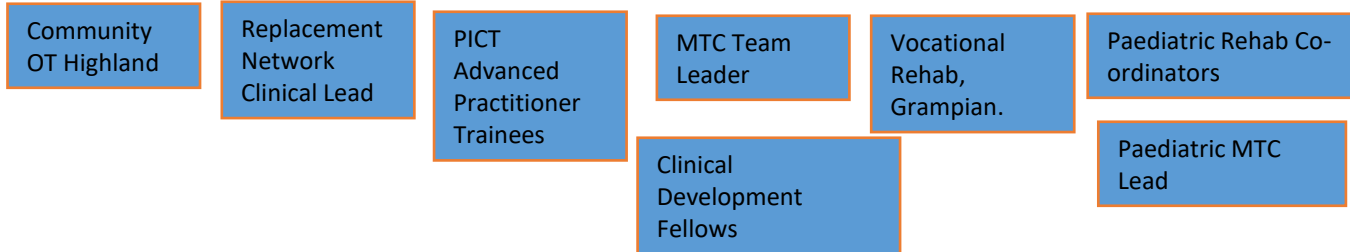

The NoS Trauma Network's vision is that every person who experiences major trauma in the north of Scotland receives responsive, high quality, safe and effective person centred care from the point of first contact through to recovery. The Network is part of the wider Scottish Trauma Network and celebrated its second anniversary in October 2020. Its members work within the Health Boards, Health & Social Care Partnerships and Scottish Ambulance Service within the north. Investment in the Network is phased over a period of 7 seven years (2017-2023) with a full compliment of staff expected to be reached by March 2021. Obviously the COVID-19 pandemic had a major impact on all of the NHS during this year and this was also true for major trauma services.

## Key Achievement 2020 - 21

## New Posts

SAVING LIVES. GIVING LIFE BACK.

# Facilitating education across the north in 19/20

# FINANCE

# Activity & Key Performance Indicators

# Patient Feedback

# Covid-19 & NEXT STEPS 2020/21

## MTC Patient Experience Report October 2018 to February 2020

- Whole team of different expertise
- It would help to get an overall organisation structure with key names
- Access to a portable DVD player. Access to wifi for pts/family
- Been involved in decisions regarding my care. Liked been involved in the discussions. Giving me ownership.

**Network COVID-19 Plan**  
Clear plan of how the network operates during the pandemic

**Network COVID-19 Remobilisation Plan**  
What has been learnt during the pandemic and how to embed best practice moving forward

**What changes to the major trauma service has worked well due to the COVID-19 response?**

- combined role of trauma case manager and rehab co-ordinator
- Use of Near me for patients and Teams for meetings

**Lessons learn?**

- The need to evaluate our actions before restructuring the team
- We can achieve with less duplication of roles and paperwork

**What could be paused/stepped down for further surges?**

- Adapting to phone / virtual clinical input rather than f2f.
- Education and network events

**Network COVID-19 Escalation Plan**  
Planning for future waves

**Network Improvement Plan 2020-2021**

Examples of activity:

**Network**

- Review role & remit of all network groups
- Agree regional neurosurgical pathway
- Review trauma CT out-of-hours across the network
- Implement case review procedure

**MTC/TU**

- Routine MTC/TU data collection i.e delays to repatriation
- Implement learning from patient feedback
- Implement pre-hospital care feedback post box

**Paediatrics**

- Establish MTC rehab weekend provision as required
- Establish an ED child protection triage tool

**Rehabilitation**

- Consult on E-Rehab Plan
- Finalise Repatriation Policy
